One of the prominent mail order houses of Chicago has issued an annoucement that it will discontinue the grocercy and retail drug branch of its ousiness. It sets out as the reason for this action, the Federal pure food law. This house tacitly admits that it has een selling the people who have been patronizing it, impure food and drugs. # Government Homesteads and How To Secure Them

From Colher's Weekly, February 1, 1908.

#### Wanted: An Opening

"Where is this place?" One who lives in an Eastern city writes this letter, one who is typical surely, of many in whom adversity lately has caused serious thought about their lot in life:

"Is there any section in these United States to which the many men who are being daily thrown out of employment in the cities may emigrate and begin life again -begin, this time, as their own masters, or in some way that will secure them against being thrown out again at the next panic? The class to which I refer is composed of un married young Americans of the intelligent, physically hardy and ambitious type seen so frequently during the good times in banks and offices-clerks, salesmen and the like, who have saved up from \$500 to \$1000.

"Obvisiously there are such places, and there are answers to this man more truthful and cheerful than to lament the passing of Government free homesteads in the West."

From a recent publication of the C. M. & St. P. Ry.

#### Millions of Acres Open for Entry

The opinion prevails to a certain extent that the Government Homestead law has ceased to operate because so little agricultural land is now owned by the government. This opinion is erroneous. There yet remain millions of acres of good farming land open for homestead entry, but until recently this land was useless for farming, owing to the great distance it was located from a railroad. So far as certain portions of South Dakota, North Dakota and eastern Montana are con cerned this condition has changed.

The Pacific Coast Line of the Chicago, Milwakee & St. Paul Railway opens to settlement thousands of acres of the best farming lands. Already enterprising American farmers are securing homesteads along this new line. Trains are already in operation on this new line as far as Harlowton, Mont, connecting there for Moore, Lewistown and other points in the Judith Basin, Montana. It is expected that trains will reach Butte in the summer of 1908, and Seattle and Tacoma by the spring of 1909.

# Free Homesteads in the West Have Not Yet Passed Away

Fergus County, Montana, contains over 1,000,000 acres of farm land open for homestead entry. In Custer, Yellowstone and Rosebud Counties there are several million acres of government land open for entry. In Butte County, South Dakota, are thousands of acres awaiting homesteaders.

The land is excellent for general or mixed farming, and Uncle Sam gives you a cordial invitation to go out and help yourself to a 160-acre farm. No drawing is necessary; first come; first served. When patented this land is worth from \$10 to \$18 per acre, and will constantly increase in value. The government fees do not exceed \$42 for homesteading 160 acres.

Since the time when the more adventurous of the early settlers struggled over the Allegheny mountains, there has never been a better opportunity for the ambitious young American than is now offered in the west by the building of this latest transcontinental railway - the Pacific Coast Extension of the Chicago, Milwaukee & St. Paul Railway.

A pamphlet on "Government Homesteads and How to Secure Them" is free for the asking; also several other publications giving infor-

## WHO USES HYOME!?

The Best People in This Town. Guaranteed in Catarrhal Troubles.

No other remedy or treatment for catarrh has ever been as popular or made so many remarkable cures in this town as Hyomei.

The best people attest its curative virtues, say the local agents. The fair way in which Hyomei was sold, to refund the money unless it gave satisfaction, was the best proof when it was introduced that it possessed unusual curative powers. Our leading druggists took all the risk of the treatment giving satisfaction, and left it to the purchasers to be the judge.

Later, when Hyomei was used and recommended by our well-known physicians and business men and their wives as a treatment that absolutely cured catarrh, no matter how serious or leng standing, the sales rapidly grew and today there is no other remedy in the druggist's stock that has such a large and staple sale.

The first breath of Hyomei's healing air kills all catarrhal poison.

Try Hyomei to-day on the offer to refund the money if the treatment does not give you satisfaction. Sold and guaranteed by the sales are said and guaranteed by the sales are said and said and guaranteed by the sales are said and guaranteed and said and guarante
